Projektet drivs av

Purpose & Goal

Purpose

The space sector will contribute to increase growth in the region on a much broader scale than it does today.

Strong links local-regional-national-international

Overall Goal

The region has a current and well anchored space strategy, linked to the Swedish strategy for space.

Project Goal

The space sector in the region has increased its capacity in R&D collaboration between academia, industry and stakeholders in the innovation support system.

What shall we deliver?

| WP 1 | WP 2 | WP 3 |
|-------------------------------------|--|--|
| Establish a Centre of Excellence | 8 PhD students will be half way through their education We have identified 8 products or services for commercialisation | Initiate an innovation support system Involve 15 regional SME:s in the space business |

Programme

- Broadening the Centre of Excellence
- The common thread - Innovation management
 - Inspired by CGI
 - How the space industry
- Workshop – Intellectual Assets
- Thoughts about the last Space Innovation Forum

November 14 at Space Campus

13.30 Welcome to Space Innovation Forum

Johanna Bergström Roos, Project Manager RIT

13.40 Additional LTU Space related Research Areas

Fluid Mechanics

Enabling ICT

Signal Processing

Control Engineering, Signals and Systems

Staffan Lundström, Chaired Professor

Anna Ståhlbröst, Associate Professor

Jaap van de Beck, Chaired Professor

Thomas Gustafsson, Chaired Professor

14.30 Innovation Management at CGI

Pesämaa

Vice President Consulting Services

15.15 Fika

November 14 at Space Campus

15.45 Innovation Management in the Swedish Space Industry

Swedish Space Corporation

OHB Sweden

NanoSpace

Mats Tyni, Sales Manager

Per Bodin, Space Engineer

Johan Sundqvist, Space Engineer

16.30 Workshop

Identification and Verification of Intellectual Assets

Emil Svanberg, Head of Technology

Transfer Office at LTU

17.45 Bus departure from Space Campus to Camp Ripan

19.00 Dinner Camp Ripan

November 15 at Camp Ripan

08.00 Workshop Part 2

Emil Svanberg

09.30 Coffee and fika (while working)

11.00 Workshop Summary

Emil Svanberg

11.30 Short Workshop about SIF 6

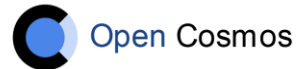

Johanna Bergström-Roos

12.00 Lunch

Innovatespace
spaceinnovation

Establish a Centre of Excellence

- Establish a creative arena for R&D projects
- Create a platform for Academia and Space Industry
- Be based on the needs of industry & the academic competence
- Establish New Networks & Create Innovative Venues
- Invite SME's, entrepreneurs, inventors, other businesses etc
- Implement the innovation support system
- Capture, verify and develop potential business ideas
